## How to change the interface language?

English is the default system language. The following languages are also available:

1. Chinese (70% available)
2. Portuguese (20% available)
3. French (30% available)
4. English (100%)

To change the interface language, please proceed as follows:

1. go to your profile

The screenshot shows the top navigation bar of the system. On the left is a search bar. In the center is a red 'Search' button. On the right is the user's name 'Justin Jteam' with a dropdown arrow. The dropdown menu is open, showing options: 'MY ACCOUNT', 'My profile' (highlighted with a red arrow), 'Logout', and 'Support site'. Below these are 'CUSTOM MODULES' (with 'none' selected) and 'CONFIGURATION' (with 'Modules' selected). In the background, there are data cards for 'ist P1', 'Comp eff %', and 'Cls'. A notification banner at the top says 'New WR' with a green triangle icon and 'Pending' with a red triangle icon. At the bottom, a legend indicates: green triangle = Default, red circle with slash = No permissions, green checkmark = Ok.

2. Click the "User Profile" tab, select the language from the dropdown menu, enter your password and click save.
